

Galapagos Islands, Ecuador

Trip Information

- **Arrival airport: San Cristóbal Airport (SCY)**
- **Departure airport: San Cristóbal Airport (SCY)**

PLEASE NOTE: Embarkation and disembarkation location may be subject to change. Please check your itinerary details carefully.

Flights and Transfers

The liveboard price includes transfer between San Cristóbal Airport or local hotels and Galapagos Master on the day of embarkation and disembarkation.

If you are staying on San Cristóbal Island before your liveboard, please inform us of your hotel name; our staff will meet you at your hotel in the morning on embarkation day to pick up your luggage and they will inform you about the arrangements for the afternoon transfer to the boat.

We offer a range of domestic flights with preferential rates and airport assistance. We can also book hotels and excursions in the Galapagos Islands or on the mainland for before and/or after your trip.

Advice on International Flights

We suggest that you book international flights to arrive into and out of Quito, Mariscal Sucre International Airport (UIO) in Ecuador, although you can use Guayaquil International Airport if it is more convenient, and that you arrive in Ecuador one day before the liveboard departure so that you are well rested before the start of the cruise.

If you are not staying in Galapagos or Ecuador for additional nights after disembarkation, please book an evening departure for your international flight to allow plenty of time for the domestic arrival and international check in.

Visa and Passports

Passport holders of most Western and Asian countries are permitted entry into Ecuador without a visa, for stays of up to 90 days. However, we advise guests to check their own government's travel advice website, or with their nearest Ecuadorian embassy for eligibility and the most up to date information. Nationals of countries not included in Ecuador's visa exemption scheme are required to obtain a visa in advance of travelling.

Your passport must be valid for at least 6 months beyond the period you intend to stay in Ecuador. If you are travelling with medication, please ensure to bring your physician's prescription with you.

Advice on Domestic Flights

Domestic flights to San Cristóbal operate from both Quito and Guayaquil.

Master Liveboards have a reserved seating allowance and preferential pricing on LATAM flights from Quito via Guayaquil which fit with embarkation and disembarkation dates and times for all guests boarding Galapagos Master in San Cristóbal. We recommend that you reserve your seat when confirming your liveboard booking in order to take advantage of our fixed preferential pricing and service.

Guests booking their domestic flights through Master Liveboards also benefit from airport assistance, priority check-in and an increased checked luggage allowance of 2 x 23 kg. Our representative will meet our guests by the domestic flights check-in area at the airport and will be holding a Master Liveboard sign.

Please be advised that *we are only able to offer airport and check-in assistance for guests who have booked their domestic flights through Master Liveboards.*

Our airport representative will also assist guests who have booked their flights through us in obtaining their TCT card* which is required before flight check-in.

*TCT / INGALA Transit Control Card is **not included in the flight price**. The cost is 20 USD per person, payable in cash only at the INGALA booth at Quito or Guayaquil Airport.

Please contact our reservations team, or your booking agent, for details on current flight pricing. We can also book other flights into the islands if you wish to extend your stay; please enquire for details via dive@masterliveboards.com.

PLEASE NOTE: Tickets will be issued no earlier than 14 days in advance of the inbound flight departure.

Airport Terminal Fees & Taxes

A mandatory 20 USD fee for the Ingala Transit Control Card has to be paid by all domestic passengers at Guayaquil or Quito Airports, depending on where you board your Galapagos flight.

Upon arrival at the airport in San Cristóbal (or Baltra), a 100 USD Galapagos National Park Tax must be paid in cash.

Passengers travelling within and outside Ecuador are generally not required to pay additional airport terminal fees or departure tax, with costs normally included within your flight ticket. There are periodic postings on forums however, where tickets bought from online agents do not include the taxes, so please check with your agent/airline if it is not clear on your ticket.

Insurance

Insurance which covers scuba diving is mandatory. All guests are also required to carry full travel and cancellation insurance, in accordance with our [Terms and Conditions](#).

We cannot be held liable for delays occurring during the cruise, nor any delays or cancellations of flights, accommodations or tours and transfers that we organise on your behalf.

Your insurance must cover all of your scuba diving and snorkelling activities, including the costs for recompression chamber treatment and emergency air evacuation. We therefore strongly recommend purchasing diving-specific insurance to cover any diving related eventuality.

PLEASE NOTE:

Travel health insurance is a mandatory requirement for entry into Ecuador. All foreign tourists are required to have travel health insurance which covers the entire duration of their intended stay in the country. **Travellers who are unable to provide proof of insurance may be denied entry.**

We act as a referrer for DiveAssure who offer dive and travel insurance policies, including short term and multiple trip policies. Their comprehensive 'Dive & Travel Plus' plan has been specifically developed for diving liveaboard holidays and covers expenses in the event of missing your liveaboard departure due to flight delays or missed connections, and also provides cover for lost diving days if for any reason the boat is required to abort the cruise; for instance, due to a guest injury, mechanical breakdown of the ship, air supply failure, inclement weather conditions, etc.

Please consult our webpage for details and direct link to DiveAssure's booking portal:
www.masterliveboards.com/insurance

Diving Information

Diving in the Galapagos can be challenging, even for experienced divers. There are often tough conditions and strong currents at certain dive sites which make the diving unsuitable for entry level divers or those who have not dived in similar conditions before.

Due to the strength of currents the last dive of the day must be made with plenty of daylight to ensure your safety and that of your fellow divers. Therefore, there are **no night dives** offered.

We provide surface marker buoys free of charge to all divers to assist in case of separation.

Guests' Level of Diving

It is mandatory for guests wishing to participate in scuba diving aboard Galapagos Master to have a minimum of **PADI Advanced Open Water** certification, or equivalent, with at least **50 logged dives**, and to show their certification card(s) and record of logged dives when they are onboard.

If our dive crew feels that you do not have the relevant skills or experience to dive the more challenging sites safely, they may stipulate that you sit out some dives.

Any guests who do not meet the minimum mandatory certification and experience requirements, or who the crew feel have insufficient experience in certain conditions, may be denied participation in some or all dives during the liveaboard.

PLEASE NOTE: We are unable to offer any diving certification courses on Galapagos Master.

If you have any questions or concerns regarding the diving conditions please contact our reservations team directly.

Non-Divers

There are some areas of the Galapagos Islands that are suitable for snorkelling but, the majority of dive sites which are visited on Galapagos Master itineraries have strong currents and high surge in the shallows near the islands, and a lot of sharp rocks underwater, making it hazardous for swimming or snorkelling.

Island access is either prohibited or not viable in most areas of the Galapagos, with the exception of the islands where we have scheduled land tours included as part of the itinerary.

Fit to Dive

All divers are responsible for ensuring that they are fit to dive, and are required to complete a medical statement prior to commencement of the liveaboard itinerary. Guests who have any symptoms that could be restrictive to diving will need to obtain a doctor's note clearing them to dive, prior to embarkation. As this may not be possible in the destination we strongly advise guests to do so before travelling.

If you are unable to complete the statement as directed, or provide a current doctor's certificate (less than 1 year old) clearing you to dive, you accept that you may not be able to take part in certain aspects of the holiday you have booked with us.

The medical statement can be found on our website at www.masterliveboards.com/forms.

Diving Safety

Use of a dive computer and safety sausage (SMB) is compulsory on Galapagos Master.

Guests are responsible for their own dive profiles and must stay within the limits of their certification, follow dive computer guidelines and make a safety stop at the end of each dive.

Flying after Diving

Current studies indicate that you should wait at least 24 hours after multiple days with repetitive diving before flying. Please keep this in mind when you book your onward international or domestic flights.

Diving Emergencies

In the unlikely event that a dive accident occurs while diving in Galapagos, there is a Hyperbaric Chamber in Puerto Ayora on the island of Santa Cruz. They operate a 24 hour emergency service with physicians, EMTs (Emergency Medical Technicians), chamber operators, and patient attendants. All personnel are trained in hyperbaric medicine by accredited international associations. The Clinic has the latest technology and operates under rigorous international regulations and safety standards. We strongly urge all guests to dive well within recognised limits, follow dive guides' advice and have dive specific insurance which covers emergency evacuation, recompression chamber and medical treatment costs.

As per our [Terms & Conditions](#) adequate dive insurance and travel insurance are mandatory.

Diving Equipment

Essential dive gear to bring to Galapagos:

- Gloves (to hold on to rocks in current).
- Hooded vest or extra layer; water temperatures can drop to 15°C or lower

We do not recommend or sell reef hooks as the currents are too strong!

An 11 litre (80 cu ft) aluminium cylinder, SMB, weight belt and weights are provided free of charge.

A limited number of 13L / 15L (100 cu ft) aluminium and steel cylinders are available by special request only for an additional cost, which must be pre-booked.

We have 7mm full-length wetsuits available to rent which can be used in conjunction with your own exposure equipment. **We strongly recommend that guests bring gloves and hoods with them** as we can not guarantee availability of these items on board to rent or purchase.

All rental equipment is subject to availability and, as it is not stored on the boat, **must be pre-ordered**. Please let us know of your equipment requirements when confirming your liveaboard booking.

Equipment rental costs can be viewed under 'Extras' on the Galapagos Master page of our website: www.masterliveboards.com/boats/galapagos-master.

General Information

Advanced Passenger Information (API)

There are certain details that we require for the airlines and our own administrative purposes prior to travel. All guests are required to submit the necessary information via our secure online portal at www.masterliveboards.com/portal.

Forms

It is a requirement for all guests to complete the following forms prior to or upon arrival on board: medical statement, liability releases, and safe standard practice statement, which can be found at www.masterliveboards.com/forms.

To save some time, and to ensure you have no pre-existing conditions that could affect your diving, you can download the forms from the above link, fill in, and bring them along. By completing and signing the forms, you are confirming that you have read, understood, and agree to the conditions outlined in the forms.

If you are unable to complete the forms as instructed, you accept that you may not be able to take part in certain aspects of the holiday you have booked with us.

Time Zone:

- The local time on the mainland of Ecuador is 5 hours behind UTC/ GMT
- The Galapagos Islands are an extra hour behind, i.e. UTC/ GMT -6hrs

Money Matters

The local currency in Ecuador is the US Dollar (USD). Larger hotels, resorts, shops and restaurants will usually accept Visa and MasterCard, although smaller ones do not. Please be aware that, in some cases, you may be asked to pay a service charge for credit card handling which can range from 4% - 10%.

PLEASE NOTE: *We are unable to accept credit or debit card payments on Galapagos Master.* Any on board payments need to be in cash only. Please ensure you bring sufficient USD cash with you to cover any onboard extras that have not been paid for in advance as well as crew gratuities and other incidental charges.

Language and Religion

The primary language spoken in Galapagos is Spanish; on the mainland the indigenous language, Quechua, is also widely spoken.

The population is 80% catholic with the remainder being 10% protestant and 10% mostly atheist or agnostic. There is a resurgence of native belief systems that revere Pacha Mama (Mother Earth) and emphasise the harmonious coexistence with nature.

Health

IMPORTANT: It is a mandatory requirement for all foreign tourists entering Ecuador to have travel health insurance which covers the entire duration of their intended stay in the country.

There are two hospitals in the Galapagos Islands, although services are limited and the facilities are unsophisticated.

We recommend that travellers follow normal precautions with food in order to prevent stomach upsets and be sure to drink either boiled or bottled water only whilst on land. On board Galapagos Master we produce our own purified water and recommend the use of electrolyte powders daily to ensure adequate hydration.

Please make sure you use insect repellent and cover exposed skin to prevent any insect borne diseases.

Vaccinations

We advise all guests to ensure that routine vaccinations such as MMR (measles, mumps and rubella) diphtheria, tetanus and polio are up to date prior to travel. Hepatitis A, Hepatitis B and Typhoid vaccinations are recommended for some travellers but not mandatory.

It is your responsibility to ensure that you have had all of the required vaccinations for the countries you are visiting. Please contact your health adviser, pharmacy, or nearest travel clinic at least 8 weeks prior to departure for the latest advice if you are unsure which vaccinations you need.

If you have been in a country affected by yellow fever within six days of arriving in Ecuador, you will need an International Certificate of Vaccination for yellow fever to be allowed entry into the country. It is also recommended for those intending to travel east of the Andes.

Climate and Water Temperatures

The Galapagos Islands straddle the equator and are affected by trade winds and the Humboldt Current which means the year is roughly divided into two seasons; 'warm' and 'dry'.

The warm season generally begins in December extending through to May/June and is quite tropical with almost daily rain showers and cloudier skies.

The dry season, which runs from May/June to November, has cooler temperatures with local rain showers generally confined to the highlands of the larger islands.

Daytime temperatures range from an average of 21°C (70°F) during the dry season, up to 23°C (75°F) in the warm season, whilst evenings are marginally cooler and can drop to just 15°C (59°F).

Water temperature ranges from 21-30°C (70-86°F) between December and May, but will drop to an average of 16-24°C (60-75°F) between June and November. Thermoclines are to be expected and divers are advised to bring suitable thermal protection. We also advise the use of gloves, both to help keep you warm in the cooler temperatures, but also to reduce the chance of stings or cuts in the event you need to hold on tight in the strong currents.

Drones

Drones may be brought into the Galapagos Islands BUT, *their use by tourists is not allowed anywhere in the Galapagos Islands*. The use of drones is only allowed under strict regulations for research and monitoring purposes, or with a special permit for commercial use.

Life on Board

All Dive and Safety briefings on Galapagos Master are generally conducted in English, although the crew also speak Spanish. If you or any of your group do not speak or understand either language, please let us know.

The main features of the vessel can be viewed on the Galapagos page of the Master Liveboards website: www.masterliveboards.com/boats/galapagos-master

Accessibility

Due to the layout of the boat, Galapagos Master may provide challenges, or be unsuitable for guests with limited mobility, and is generally not suitable for wheelchairs. Please contact us for further details if you have any questions or concerns.

Accommodation

Maximum capacity on Galapagos Master is 16 guests in 8 double occupancy cabins. Single occupancy may be available on request, and is subject to a supplemental charge.

Cabin Facilities

All cabins have individually controllable air-conditioning and private en-suite bathrooms with centrally heated hot water. Other facilities include hairdryer, towels, bathrobes, and lockable safety boxes.

Electricity

Galapagos Master has both 220V and 110V US style power outlets. There are a limited number of universal adapters available for guests to use, although we do advise guests bring their own to ensure you have the amount necessary.

Food and Drink

Meals are provided on a full board basis including a light breakfast, full breakfast, lunch and dinner served buffet style in the indoor dining area. A complimentary selection of carbonated soft drinks*, fruit juices and teas are available at all times as well as instant and freshly brewed coffee, snacks and fresh fruit. Guests may also select beer, wine, or spirits from our cocktail bar for an additional charge.

***Please note:** Due to the government ban on plastics in the Galapagos Islands, **Diet Coke, Coke Zero, and other diet sodas are not available** as they are not produced in returnable glass bottles.

We offer a choice of International and locally inspired cuisine and can cater to special dietary requirements with advance notice. Should you have any specific dietary needs, allergies, or special requests, please advise your sales consultant at the time of confirming your liveboard trip to ensure we are able to make provisions for your needs.

Please be aware that it can be very difficult to find low-fat or soya products and some other special dietary items that are common elsewhere, particularly for vegans. We always do our best to accommodate dietary requests although we require plenty of advance notice in order

to do so. While it is possible to get coconut milk, soya milk, almond milk, a variety of legumes and small vegan bites, **the following VEGAN items can NOT be found** in Galapagos:

- Portobello mushrooms
- Vegan cheese
- Vegan breads / pastries
- Vegan 'meats'
- Vegan yoghurt is also NOT allowed in Galapagos.

It is also not possible to find Gluten Free cookies

Guests with very specific needs should consider bringing some of their preferred processed food items or snacks if the lack thereof may constitute a health risk, or seriously compromise your enjoyment of your holiday.

Please note however that ***you can not bring seeds, fresh fruit, plant materials or unprocessed food products into the islands.*** Everything will be x-rayed by Galapagos National Park Authority personnel at Quito or Guayaquil airport and again upon arrival at San Cristobal or Baltra Airport and prohibited items will be confiscated.

Please refer to our Galapagos National Park [Prohibited items document](#) for further details.

Clothing and Footwear

Dress on board is very casual and most guests feel comfortable in little more than swimwear, shorts and t-shirts. A sweater is advised for cooler nights, particularly after multiple dives. Galapagos Master is equipped with laundry facilities and our housekeeper is happy to launder your clothes during the trip for a nominal fee of 1.00 USD per item irrespective of size/weight.

We request that guests respect the wishes of others by donning clothing for meal times. Most guests prefer bare feet on board the vessels; however island visits may require sturdy sandals or cross-trainers.

Staying connected

We regret that we are unable to provide an internet service on board Galapagos Master. Many of the sites visited during the Galapagos Master liveaboard are very remote and internet service is intermittent at best. Most cell or mobile phones which have 'roaming' will function periodically during your cruise. However, service signal strength can be very weak, and some areas may have no signal at. The cost of calls made is determined by your service provider.

We have satellite phone communication which can be used by guests in the event of an emergency, which will be charged at a per minute rate.

Should your family need to contact you during the cruise, our out of office contact numbers can be found below; however the numbers are reserved for emergencies only.

Underwater Photography and Videography

Galapagos Master offers specialised features for underwater photographers and videographers which include:

- Indoor and outdoor work stations for the preparation and maintenance of cameras.
- Individual storage drawers for cameras and peripheral items.
- Large rinsing tanks with frequently changed fresh water.

Our crew are thoroughly trained in the handling of delicate camera equipment and will bring your cameras to/ from the tenders for you.

Drones

The use of drones is only allowed under strict regulations for research and monitoring purposes, or with a special permit for commercial use. ***Tourists are not permitted to use camera drones anywhere in the Galapagos Islands.***

Smoking

Smoking on board is permitted in designated outdoor areas.

Environmental considerations

All visitors and operators in the Galapagos Islands must comply with the National Park Rules, which can be found in the downloads section of the Master Liveboards website, or directly using this link: [Galapagos National Park Rules](#)

We respectfully ask our guests to consider the following to help with our mission to reduce our environmental impact in the Galapagos Islands.

Batteries

While some batteries may be available to purchase on board we advise bringing extras with you, especially if your personal dive and / or camera equipment requires a unique size, or will need a lot of replacement batteries during your trip. We also kindly request that you take spent batteries home so that they can be recycled or disposed of properly.

Alternatively, consider using rechargeable batteries as there are plenty of sockets to plug in a charger on board.

Drinks Bottles

We do not provide any drinks in plastic bottles on board Galapagos Master. If you own a sports bottle please bring it with you, or you can purchase one on board. If you don't have one and you don't want to purchase one, we have plenty of cups on board which you can use to ensure you remain well hydrated.

Additionally, due to the Galapagos Islands restriction on plastics, we are unable to offer Diet Coke, Coke Zero and any other diet sodas that are not available in recyclable glass bottles.

Plastic bags and wrappers

In accordance with the Ecuadorian Government's ban on single use plastics in the Galapagos Islands, we do not provide plastic bags for purchases made on board, although reusable canvas bags are available for sale. Please help us minimise plastic waste by removing plastic wrappers and packaging from items before travelling.

Toiletries & Sunscreens

We kindly ask that guests consider the type of products which they are bringing with them and, where possible, to bring environmentally friendly toiletries and reef-safe sunscreens for use on board, and to take partially or unused products home with them.

Payments on Board

On board extras and payments

Additional charges for items such as laundry, alcoholic drinks, and Galapagos Master merchandise, as well as equipment and nitrox which has not been paid for in advance can be paid **on board in cash only**.

We are unable to accept any card payments on Galapagos Master.

All prices on board are quoted in USD and payment is preferred in USD, although we can also accept Euro and GBP. However, due to extremely unfavourable bank exchange rates in the Galapagos, we strongly suggest that you **only bring USD cash** with you for any extra payments and crew tips on board and on land.

Tipping

We believe that tipping is a matter of personal choice. Should you feel that your crew has made your holiday extra special then a tip is always appreciated. Crew and guides are dedicated to ensuring your safety and enjoyment throughout your time in Galapagos, and work extremely hard night and day to do so.

If you would like to show your thanks for all their hard work, you can leave a tip in the envelope provided. Please hand this directly to the Captain.

Please note that all gratuities are divided equally between the eleven members of crew including the dive guides. If you are unsure how much to tip, other liveaboards in Galapagos typically propose a figure around 10% of the cost of your cruise, or USD \$60-\$70/day in our case.

Safety on Board

Emergency Management & Equipment

Galapagos Master crew members undergo rigorous training in emergency management procedures and the vessel is equipped with many modern safety features such as automated life rafts, EPIRB (Emergency Position Indicating Radio Beacon), satellite communication, fire fighting and detection systems and emergency pumps.

A thorough boat briefing will be provided by your Cruise Director at the start of your trip during which all guests will be requested to participate in a life jacket drill. Further practice scenarios may be performed during your cruise to assist our crew in keeping their skills sharp.

First Aid

Galapagos Master is equipped with a fully stocked medical first aid kit for treating minor injuries and ailments as well as for assisting trained medical professionals in remote locations. There is a full complement of medical grade oxygen which can be administered to divers through DAN kits or unit specific attachments. You will also find on board an Automated External Defibrillator (AED) which has been proven to greatly increase the survival rate in the eventuality of cardiac fibrillation.

Our dive team are all qualified emergency responders. Should you feel unwell at any point during your cruise, please seek the advice of your cruise director who will be able to assist you.

Extending your holiday

Travelling within Ecuador and the Galapagos Islands can be made exceptionally easy when you book with Master Liveaboards. As well as a range of domestic flights, we can also offer hotels, excursions and tour packages, which can be arranged for before and/or after your trip.

Optional Galapagos Package

After a night in Quito or Guayaquil, transfer to the airport and board the designated flight to San Cristóbal. On arrival in San Cristóbal, you will be met by a Galapagos Master representative who will transfer you to the boat. After the cruise you will be transferred to San Cristóbal Airport for your flight back to Quito or Guayaquil where you will stay overnight before transferring to the airport for your international flight home. The offer can be tailored to your needs and includes:

- 2 nights hotel accommodation in Quito or Guayaquil (either side of your cruise)
- Return flights to San Cristóbal
- All Transfers

Excursions

Quito-Guayaquil-Quito Devil's Nose Adventure

The journey from Quito to Guayaquil (or vice versa) is one of the most spectacular train journeys in the world, which re-opened in June 2013 after years of renovations. Dating back to the late 19th century, the line runs from Quito, high in the Andes, all the way to lowland Guayaquil on the Pacific coast, and connecting the Valley of the Volcanoes with the infamous Nariz del Diablo (Devil's Nose) - one of the steepest stretches of railway in the world.

The trains themselves offer a luxury travel experience, with dining cars, a lounge with large windows, as well as open carriages for passengers to experience the landscape to the full.

The trip along the entire length of the line takes four days/three nights, with time for excursions en-route and accommodation included. There are also shorter options available; there is the opportunity to join in for only selected parts of the line if your time is limited.

These are just some of the many domestic travel options to choose from. Prices for these and other add-ons vary depending on the time of booking. Please contact our reservations team at dive@masterliveboards.com or ask your agent for more information and other possibilities.

FAQs

If there are any questions that have not been answered, please visit our website at www.masterliveboards.com/faq/ or e-mail dive@masterliveboards.com and our team will be happy to assist you.

What to Bring

The following is a check list of items that you should ensure to bring with you for your trip aboard a Master Liveboards vessel.

Passport

6 month validity & at least 2 empty pages for visa stickers and stamps

Travel Documents

Flight tickets - International & Domestic; hotel booking; excursions

Cash & Credit Card for emergencies

Recommended amount (additional to park & port fees): 250 - 500 USD
Airport Departure Tax in local currency

Diving Certification & Logbook

Including Nitrox Card if certified & intending to use Nitrox

Travel and Diving Insurance Documents

To include emergency medical evacuation

Essential Diving Items

Dive computer with full battery

Toiletries & Medications

Including sunscreen & insect repellent
Inform booking team of medical conditions

Essential Clothing Items

Swimwear, hat and lightweight jacket

Guests are strongly advised to carry essential items in hand luggage in case of lost or delayed luggage through International or Domestic Flights.
