Premium Diving and Travel Insurance

Dive&Travel by DiveAssure

Finding a suitable travel insurance policy to cover your trips is not an easy task. The challenge is even bigger when going on a dive trip. Divers are not always aware of their special insurance needs as well of the specific knowledge and experience that is required when treating diving accidents in remote destinations, often with insufficient local medical knowledge.

DiveAssure offers 2 dive and travel plans that provide comprehensive general travel and diving accident insurance. In addition, both plans include many benefits specific to diving such as coverage for lost diving days and trip cancellation due to inclement weather. The Dive&Travel Plus also offers a general travel insurance program, will cover your trip expenses if you missed the departure of your liveaboard because your flight was delayed, or if you have to cancel your trip as you are medically unable to dive, yet in good health otherwise.

Corona Virus

DiveAssure programs include Covid-19 related Medical Expense and Trip Interruption benefits, as well as Covid-19 related cancellation and interruption coverage.

See <https://diveassure.com/th/corona-virus/> for more information.
