2026 - Fuel Surcharges

As a result of the ongoing conflict in the Middle East and the wider instability it has created in international energy markets, global fuel prices have risen significantly. As a company whose operations rely heavily on marine fuel, these increases have had a substantial impact on our operating costs.

We have done what we can to absorb these rising expenses and have explored every option available to us to avoid passing additional costs on to our guests. Unfortunately, the continued volatility in fuel pricing has made it necessary for us to introduce a temporary fuel surcharge on upcoming departures.

Below is the current table of surcharges as of 21-Aug-2026.

Destination	Fuel Surcharge
Bikini Atoll	38 USD per night
Galapagos	27 USD per night
Indonesia	15 USD per night
Maldives	26 USD per night
Palau	35 USD per night
Philippines	No current departures affected
Red Sea	No current departures affected
Solomon Islands	35 USD per night
Thailand / Myanmar	No current departures affected
Truk Lagoon	No current departures affected

NOTE: *All applicable fuel surcharges must be paid in advance of travel.*

Should you have any questions regarding fuel surcharges on upcoming departures, please feel free to contact our reservations team: Dive@masterliveaboards.com
