

# Cebu, Kawasan Falls Canyoneering

## Introduction

Located in the municipality of Badian, approximately 103 kilometres from Cebu City, on the southwestern coast of Cebu Island, Kawasan Falls is one of the best waterfalls in the Philippines. The coastal town of Badian is blessed with multiple natural attractions such as rivers, freshwater streams, massive jungle canyons, waterfalls and beautiful natural pools.

**PLEASE NOTE:** Canyoneering involves trekking and climbing up and across rough and rocky terrain so, *a good level of fitness and mobility is required.*

Situated at the foot of the Mantalongan Mountain Range in Barangay Matutinao, one of the most spectacular aspects of the Kawasan Fall is its multi-tier layout featuring three waterfall levels, cascading through the lush green forest into crystal clear, blue pools.

As the falls are in the midst of the forest, an uphill hike is necessary to reach the first waterfall which is also the largest. Canyoneering is a popular activity at Kawasan Falls and something different for the adventurous and thrill seekers.

Kawasan Canyoneering offers the opportunity to explore and experience the falls in a unique and challenging way under the supervision of professional canyoneering guides. Following the course carved by millions of years of water flow, you'll descend to where the canyon opens on level terrain.

By definition, canyoneering (or canyoning) is the exploration of canyons by engaging in activities such as walking, scrambling, climbing, jumping, rappelling, rafting and swimming.

The Kasawan Falls canyoneering may be done either upstream or downstream:

- Downstream starts at Barangay Sulsogan, (about 5 kms away from the hub) and ends at Kawasan Falls.
- Upstream canyoneering starts at Kawasan Falls in which the guides will bring ropes for you to climb up to several waterfalls and ending up at Barangay Sulsogan, Badian.

## EXCITING ACTIVITIES

All the best elements of rappelling, scrambling, rock hopping, down climbing, navigation and cliff jumping, water slides and swimming combined into one exceptionally fun and exciting activity.

**SCRAMBLING** - The action of scrambling up or over rough or steep ground, especially as a leisure activity.

**ROCK HOPPING & TREKKING** - An activity involving jumping off rocks. A movement involving difficulties or to make one's way arduously.

Take your time walking through and watch your footing so you won't roll your ankle. The professional guides are experts at knowing which side to walk.

**CLIFF JUMPING & WATER SLIDES** - Jumping off a cliff and a slide typically flowing with water. Definitely something for adrenaline junkies!

Shallow and deep at different stages but full of various rock formations under. Once you get to the top, the view is breathtaking for its clear, cool turquoise water awaits inside a beautiful canyon full of stalagmites.
